ABILITIES

<i>Shadowmeld</i>	
KW: Magic	Type: Maneuver
Distance: Self	Target: Self
<p>Effect: You flatten yourself into a shadow against a wall or floor you are touching, and become hidden from any creature you have cover or concealment from or who isn't observing you.</p> <p>While in shadow form, you have full awareness of your surroundings, and strikes made against you and tests made to search for you take a bane. You can't move or be force moved, and you can't take main actions or maneuvers except to exit this form or to direct creatures under your control, such as one you summon using an ability. Any ability or effect that targets more than 1 square affects you in this form only if it explicitly affects the surface you are flattened against. You can exit this form as a maneuver.</p> <p>If the surface you are flattened against is destroyed, this ability ends and you take 1d6 damage that can't be reduced in any way.</p>	

<i>Stoke the Flame</i>

Dance Like Embers (3 Spark)

KW: Magic	Type: Maneuver
Distance: Self	Target: Self
Effect: You can teleport twice, each time up to 2 squares. If you are adjacent an enemy, no matter the enemy's size, you can teleport to a space on the opposite side of the enemy as one of the teleports. All 3 squares before and after your teleports count as allies for flanking enemies until the end of your turn.	

But I Know Who Does

When you fail a test to recall lore with a skill from the lore skill group that you have, you know the closest place where the information you seek with that test can be found. It could be a sage, in a library, or somewhere deep in a dungeon. The Director determines the source's location.

Smoldering Sword (5 Spark)

KW: Magic, Ranged	Type: Maneuver (Heroic)
Distance: Ranged 5	Target: Special

Effect: You summon in an unoccupied space within distance an ethereal flaming sword of size 1S that can't be harmed. The sword lasts until the end of the encounter. Summoning a new smoldering sword dismisses the previous one.

All creatures can move through the sword's space. When an enemy adjacent to the sword willingly moves to a space not adjacent to the sword without shifting, the enemy provokes an Opportunity Attack from you.

When you use a Weapon ability, you can choose to use it from the sword's position. An ability performed in this way temporarily gains the Magic keyword and deals additional fire damage equal to your Reason score.

At the start of your turn while the sword is summoned, as a free maneuver, you can move the sword up to your speed.

Thread the Needle (5 Spark)

KW: Magic	Type: Main action (Heroic)
Distance: Self	Target: Self

Effect: Use a signature ability. After you use the ability, you can shift up to your speed (6) and make a melee free strike.

Flameshade Gloves

When you use a move action while wearing these gloves, you can place one hand upon a mundane object as part of that move action. If the object is 1 square thick or less and has open space on the other side (for example, a door or wall), you pull your body through it as though the object wasn't there.

If the object is too thick or has no open space on the other side, your hand becomes stuck inside the object. Removing your hand takes a successful **Hard Might test** made as a main action.
